SUMMARY

Undergraduate student pursuing a Bachelor's degree in Information Systems, possessing a solid foundation in core software engineering concepts. Familiar with the fundamentals of Web Development (PHP, JavaScript, HTML, CSS) and Android Development (Flutter, Kotlin). Eager to further develop analytical and technical skills within a professional setting. Ready to join a cross-functional project team, learn new systems, and contribute to the maintenance and optimization of services for Traveloka.

EXPERIENCE

Medical Representative

03/2023 - 05/2023

PT Dipa Pharmalab Intersains

- Conduct routine daily visits to target physicians (users), pharmacists, and hospital pharmacy units in accordance with the established call plan.
- Take full responsibility for achieving monthly sales targets for targeted products in the designated area.
- Ensure product availability at pharmacy outlets, partner pharmacies, and hospitals to ensure prescriptions are filled.
- Conduct scientific and persuasive product presentations (detailing) to explain the efficacy, safety, and advantages of the company's pharmaceutical/medical device products compared to competitors.

Store Crew

02/2021 - 02/2023

PT Sumber Alfaria Trijaya (Alfamart)

- Handle cash and non-cash (Debit/Credit/QRIS) payments using a POS machine accurately and quickly.
- Responsible for the alignment of cash (deposits) with sales reports at shift change.
- Maintain the cleanliness of the store's indoor and outdoor areas (outdoor/terrace) for customer convenience.
- Conduct daily and periodic Stock Takes (SO) to ensure the accuracy of physical inventory data with computer data.
- Regularly check expiration dates to maintain the quality of products sold.
- Implement a FIFO (First In First Out) system for inventory turnover in the warehouse and on display shelves.
- Arrange and tidy products on shelves according to company planogram standards to ensure they are attractive and easily found by customers.
- Implement excellent service standards based on the 3S principle (Smile, Greet, Greet) for every customer who comes in.

EDUCATION

Information Systems

03/2023 - Present

BINA SARANA INFORMATIKA UNIVERSITY - Engineering & Informatics

- Vigenesia Mobile Portal (Full-Stack Development)

Developed a dynamic news portal using Flutter (Mobile UI) that integrates with a Laravel Backend REST API for data retrieval and uses MySQL as a database.

- Simple Inventory Web Application (Full-Stack Development)

Built a CRUD Inventory system using CodeIgniter 3 to manage stock and transaction flow.

Tourism

06/2018 - 05/2020

SMK NEGERI 13 JAKARTA

CERTIFICATES

Intermediate Junior Web Developer Vocational School Graduate Academy Digital Talent Scholarship 2025 Pusat Pengembangan Talenta Digital	09/2025 - Present
Fundamental Junior Web Developer Vocational School Graduate Academy Digital Talent Scholarship 2025 Pusat Pengembangan Talenta Digital	08/2025 - Present
JavaScript Best Practices: Optimize & Maintain Clean Code Udemy	02/2025 - Present

SKILLS

Web Development : PHP, JavaScript, HTML5, CSS3, MySQL Database	Software Concepts : SDLC, OOP (Object-Oriented Programming), Database Design
Mobile Development : Flutter Framework, Kotlin (Basic Syntax)	Professional Skills : Problem Solving, Team Collaboration, Adaptability, Time Management
Developer Tools : Git (Version Control), GitHub, Visual Studio Code, Android Studio	Communication : English (Intermediate / Conversational), Indonesian (Native)
